# LOOK CLOSER.

Defined Thumb Profile

Palm-Side Mesh

Reinforced Stitch Detail

Adjustable Wrist Closure

Material and padding specifications confirmed by selected model.

GRIP & CONSTRUCTION

# A MORE NATURAL FIST.

The EVA-Lution grip uses a highly compressed bar to support fist formation, paired with an attached thumb and defined stitched panels.

GRIP

## EVA-Lution Bar

A compressed grip bar provides a defined surface for the fingers.

FOAM

## Dense Protect+

One-piece injection foam forms part of the cushioning construction on equipped models.

THUMB

## Connected profile

An attached thumb follows the natural contour of the glove.

*Grip and padding systems vary by model; confirm your selected configuration.

VENTILATION

# MORE AIRFLOW. MORE COMFORT.

Strategically placed nylon mesh and aerated perforations promote airflow, helping manage heat and moisture inside the glove.

MESH

## Hydra-Flow Ventilation

Open mesh supports air circulation through the palm area.

LINING

## Soft Interior

A soft, sweat-absorbent lining helps manage moisture during training.

FRESH

## Between Sessions

Improved airflow and thorough drying help limit moisture and odor buildup.

Allow gloves to dry fully between sessions. Ventilation and lining details vary by model.

COACHING EQUIPMENT

# FOCUS EVERY SESSION.

Focus Mitt with Matching Target Graphics and Rear Hand Pocket.

STRIKING FACE

REAR HAND POCKET & STRAP
